EXPERIENCE

Shieldient India Pvt Ltd

Thane West, Maharashtra

Cyber Security Intern

Dec 2025 – Mar 2026

- Performed vulnerability assessments and security scans across enterprise systems using Qualys VMDR to identify and validate potential risks.
- Reviewed scan results, prioritized vulnerabilities based on CVSS scores and business impact, and worked with teams to support remediation efforts.
- Monitored and investigated security events using Securonix SIEM and CrowdStrike EDR, helping identify suspicious activity and potential threats.
- Created clear documentation and reports outlining vulnerabilities, findings, and remediation progress for internal stakeholders.
- Assisted with incident investigations, IOC analysis, and threat hunting activities to support proactive detection and response.

Saptang Labs Pvt Ltd

Chennai, Tamil Nadu

Cybersecurity Researcher Intern

05 Sep 2024 – 31 Dec 2024

- Monitored dark web forums to identify leaked organizational data (credit cards, credentials, source code).
- Developed Python-based scrapers to automate threat intelligence collection from multiple OSINT sources.
- Profiled threat actors and reported findings to internal security teams, improving response readiness.

SKILLS

Technical: Vulnerability Assessment, Vulnerability Validation, Risk Assessment, Remediation Tracking, CVE Analysis, CVSS Scoring, Web Application Security, OWASP Top 10, SAST, DAST, Authentication Testing, Input Validation Testing, Network Enumeration, Port Scanning, Vulnerability Discovery, Threat Hunting, Incident Investigation, IOC Analysis.

Tools: Qualys VMDR, OpenVAS, Burp Suite, Nmap, OWASP ZAP, SQLMap, FFUF, Gobuster, Dirsearch, Wireshark, Securonix SIEM, CrowdStrike EDR, FTK Imager, Magnet AXIOM, Cellebrite UFED, Oxygen Forensics, Volatility.

EDUCATION

National Forensic Sciences University (NFSU)

Gandhinagar, Gujarat

M.Sc. in Digital Forensics and Information Security – CGPA: 7.2

2022 – 2024

Atal Bihari Vajpayee Vishwavidyalaya University

Bilaspur, Chhattisgarh

Bachelor of Computer Applications – Percentage: 74.8%

2019 – 2022

CERTIFICATIONS

EC Council

July 2025 – Aug 2026

Certified Ethical Hacker (CEH) Practical v13

Certification Number : ECC7514938026

Red Hat Enterprise Linux 7

May 2019

RED HAT CERTIFIED SYSTEM ADMINISTRATOR

Certification Number : 190-103-333

ACHIEVEMENTS

- Secured **3rd Place** in the Toyota Tsusho Systems CTF among participating teams, demonstrating skills in vulnerability identification, exploitation, network analysis, and incident investigation.
- Achieved **Top 20** Ranking in the HSBC Tech India & IIT Bombay Trust Lab CTF, successfully solving web application security, OSINT, cryptography, and digital forensics challenges.
- Participated in Anveshanam'24 Cybersecurity Competition (IIT Jammu), gaining practical exposure to attack simulation, threat analysis, and security problem-solving.
- Ranked in the Top 30 of Mercer Mettl BitGuard 2.0, demonstrating strong analytical abilities in vulnerability assessment and offensive security challenges.

PROJECTS

Advanced Social Media Bot Detection — Github

July 2024

- Enhance the integrity of online interactions by identifying and mitigating the impact of bots.
- Used a dataset with features distinguishing bots from humans and applied machine learning algorithms for classification.
- **Tools:** Python, Pandas, NumPy, Scikit-learn, Random Forest, Selenium.

ML-Based Email and SMS Spam Filtering — Github

May 2023

- Built and deployed a machine learning model using multiple classifiers, achieving 97% accuracy with ensemble methods.
- Implemented Naive Bayes, SVM, and Random Forest algorithms, improving accuracy through ensemble techniques.
- **Tools:** Python, NLTK, Scikit-learn, Matplotlib, Pandas, NumPy.
